New Callout Box Functions

We are pleased to announce some improvements to our call out boxes that you, the customer can now control!

To enable these features you must contact GoalLine Support at support@goalline.ca and request that the user controlled call out boxes be enabled for your website.

Once enabled by GoalLine you can control your call out boxes by going to **Master Menu\Communication Tools\Edit Front Page Display.**

The red **[?]** will explain each feature by clicking on it.

You will have the ability to control the left, middle and right call out boxes on your site. Below we will explain the call out box features you can control.

In the below graphic you will see that you now have the ability to upload your own images into the call out box. To do so, select **"Image Upload with Text"** for type.

Image – Add your image. Note: The **Ideal Pixel dimensions are 212 x 219**. The file allows for square photos to be uploaded, with some give on the specific aspect ratio.   If your photo does not fit these dimensions it will not upload.

Links To: You can choose to have no link for your image or you can choose to link it to a previously created webpage.

Teaser Text: If **image upload with text** is selected this is an optional piece to the call out box. The text will show up over a dark, semi-transparent backdrop overlaid at the bottom of the image. The text has a limit of 60 characters. (See image below "Penalty Box")

The preview works for the teaser text, it will not work for the photo you're uploading, but when you finish uploading and return to the page, it'll be there.

Type: You can also link your call out boxes to the following

> ➢ Events – Will populate your call out box with upcoming events.
> ➢ Scores – Will display recent results in from games scored on your site.
> ➢ Games – Will display upcoming games on your site
> ➢ Practices – Will display upcoming practices
> ➢ Featured Articles – You can link your call out boxes to a posted News article by using the "Featured Article 1, 2 or 3" button on the **add-edit-delete news article tool.**

Title Text: You can choose from some of our canned titles for your call out boxes.
